Notice Extraordinary!

WE WOULD NOTIFY the merchants and the public generally in the Western States that the Match Manufactory of R. W. PIERCE & CO., Milwaukee, Wis., is in full and successful operation, notwithstanding the declarations of a match concern in Detroit, Mich., that our establishment had burned down—that R. W. Pierce & Co. had failed—that no more R. W. Pierce's matches would be seen in market, &c. &c. We are well aware that all such assertions will in due time recoil with bad effect upon the party who originated them, and what we wish is, that the public should be set right in the matter. We now have facilities for manufacturing matches as cheap, or cheaper than any other establishment in the West, and as to the quality, we will leave those who have used them for the last thirteen years to be the judges, and will only remark that our business has increased from less than $1000, in 1844, to more than $50,000, in 1856.

All orders for matches promptly filled.

VOLUME XIV. MILWAUKEE DAILY SENTINEL, WEDNESDAY MORNING, MARCH 18, 1857. NEW SERIES.

THE DAILY SENTINEL.

RUFUS KING & WM. H. WATSON,
PROPRIETORS.
Under the Name and Firm of Rufus King & Co.

MILWAUKEE:

Wednesday Morning, March 18.

For Chief Justice of the Supreme Court,
EDWARD V. WHITON.

ELECTION, TUESDAY, APRIL 7.

News of the Morning.

The telegraph brings us, from St. Louis, an abstract of statements made by Gov. Geary, of Kansas, who has resigned his post, owing to lack of support by the Government. He fully confirms the accounts of outrages committed by the pro-slavery party. His statement ought to bring a blush to the cheeks of those who have sneered at "bleeding Kansas."

News by private letters from Nicaragua do not confirm the reports of success of the filibuster party.

Senator Hale and his daughter, it seems, are ill from the effects of the poisoned water at the National Hotel, at Washington.

We have some further particulars of the frightful Railroad catastrophe, near Hamilton, Canada. Up to the latest dates *fifty-five* dead bodies had been recovered from the wreck, but it was believed that some twenty or thirty more were still in the water. The funeral of the late Mr. ZIMMERMAN took place at the Falls on Monday last and was attended by a vast concourse of people.

The Milwaukee & Mississippi Rail Road—its Speedy Completion—Trade and Travel from the North-West.

On Saturday last, March 14, the track of the Milwaukee and Mississippi Rail Road had been laid to within *fifteen* miles of Prairie du Chien, its *terminus* on the Mississippi. As the grading is all completed for the remainder of the distance and the iron for the residue of the track all on hand, it only needs favorable working weather to ensure the completion of this great work within the next thirty days. There is every reason, therefore, to believe that the road will be finished and opened for *through* business to the Mississippi, by the 15th or 20th of April, and according to present appearances it is not probable that the Upper Mississippi will be clear of ice before that date.

The opening of this new thoroughfare is not only a great event for our City and State, but a long watched-for and most welcome addition to the facilities heretofore enjoyed by Northern Iowa, Minnesota and North-Western Wisconsin, for business and social intercourse with the East. We learn from Judge TOMPKINS, of Janesville, who returned from St. Paul last week, that the whole Upper Country is waiting impatiently for the opening of this new and direct avenue to the Lakes and the Sea-board, and are prepared to flood it with freight and passengers. Large quantities of produce, accumulated West of the Mississippi, will seek this route to market. That portion of Iowa, lying directly West of McGregor (opposite to Prairie du Chien on the Mississippi) and tributary to that town, is unsurpassed in beauty and fertility, by any section of the West. It is well settled, under fine cultivation, and with a large surplus of grain on hand which will come to Milwaukee for sale, or shipment.

But besides this large impending addition to the Produce trade of this port, consequent upon the speedy opening of the Milwaukee and Mississippi Rail Road, there is a most inviting field offered to the enterprise of our Wholesale Merchants, Manufactures, Machinists, &c. The romantic banks of the Upper Mississippi are dotted with innumerable villages and towns and incipient cities, each one the nucleus of a brisk trade, and all thriving and expanding with the growth and increase of the magnificent country which stretches away, for hundreds of miles, along both shores of the Father of Waters. There is not one of these swelling centres of progress and population where one or more customers may not be found for the Dry Goods, the Hardware, the Drugs and Groceries, the Steam Engines, Mill Gearings and Castings, the Boots and Shoes, the Hats and Caps, Matches, Pottery, Bricks and Wooden Ware, and nearly every other article which is sold, or manufactured in Milwaukee.—But there are active and wide-awake competitors for this lucrative trade. Already Chicago, St. Louis, Dubuque, Galena, Cincinnati even, have their runners, posters and advertisements, scattered broadcast thro' the Upper Mississippi towns, offering tempting inducements to Merchants to come and buy.

But as yet MILWAUKEE, their nearest and natural mart, has neither been heard or represented there. And now that, in the daily expectation of the opening of the M. & M. R. R. they are all looking to Milwaukee, and strongly predisposed in her favor—*now* is the time for our Merchants, Manufacturers and Traders to make a bold push for this business. Let them strike while the iron is hot. Let them scatter their cards, handbills, circulars and advertisements, up and down the Mississippi. Let them dispatch some of their shrewdest clerks to La Crosse, Winona, Prescott, Hudson, St. Paul and other principal towns on, or near the Mississippi, and canvass thoroughly for orders. It may be that the first returns will be small, but the current *once set* in this direction, would speedily swell to a generous and enriching volume. What is to be done in this matter, should be *quickly* done.

Of course the Milwaukee and Mississippi road would be greatly the gainer by the diversion of trade to this city. So too, must it profit largely by the through freights from the Seaboard cities, destined for Upper Iowa, Wisconsin and Minnesota, which have heretofore taken the Chicago and Galena line, but must henceforth follow the M. & M. R. R., as the *shortest, cheapest and quickest* route. So too, will its revenues be greatly swollen by the passenger traffic between the Upper Mississippi country and the Lakes, the great bulk of which, whether on business, or pleasure, must necessarily prefer the short cut thro' our peerless State to the roundabout and not over inviting route thro' Illinois. With the opening of the Milwaukee and Mississippi R. R. then—now close at hand—and reasonable efforts on the part of our Merchants and Manufacturers to obtain a share of the Upper Mississippi trade, we anticipate such a rush of traffic and travel to and through our city, this coming Spring and Summer, as those only who have beheld the same stirring scenes at Chicago, can fully realize.—Speed and welcome the day!

WONT RUN.—A prominent gentleman of Mineral Point, who is good authority on such matters, in the course of a private letter written on the 14th, says:

"Judge Cothren has not yet returned from his missionary tour to Washington.—His friends here say that he will not run for Chief Justice."

He is at Washington seeking an appointment under the new Administration.—*Madison Journal.*

Mr. COTHREN, as we have already stated, is an applicant for the U. S. District Attorneyship of Wisconsin. He prefers to wear Uncle Sam's livery, rather than serve the people of this State. Aside from all other reasons, against his election as Chief Justice, this one alone should be conclusive.

CAPITOL EXTENSION BONDS.—The vote in Madison on Saturday for issuing $50,000 in bonds for the enlargement of the Capitol was nearly unanimous. It will be remembered that the law provides for an expenditure of about $100,000, of which the proceeds of these bonds form a part, $30,000 comes from the General Fund, and the balance from the sale of certain lands long since granted by Congress for the purpose.

GREAT FIRE AT PATERSON, NEW JERSEY.—The Waverly and Mallery Mills, at Paterson, N. J., were destroyed by fire on the 13th instant.—Loss $100,000, mostly insured.

Called to Account.

Mr. D. E. CAMERON, a very respectable lawyer of this city, whose name has been favorably spoken of in various quarters in connection with the County Judgeship, is arraigned in the columns of yesterday's *News*, by "many democratic citizens" (who forgot to sign their names) for various high crimes and misdemeanors. He is accused, among other things, of being supported (for Judge) by one Robert Chandler, said to be a Wisconsin Delegate to the late K. N. Convention at Philadelphia; also, of having his name first mentioned for that office in the columns of the Daily *American*, late a K. N. organ; also, of having been promised the aid of members of the K. N. party, in case he concludes to run. Wherefore the "many democratic citizens" require of Mr. CAMERON to answer specifically and promptly these queries, to wit:

1. Will he accept a regular Democratic nomination for County Judge?

2. If he fails to obtain the regular democratic nomination, will he go in for the man that *does* get it?

3. How is it that such a decided K. N. as Mr. Chandler busies himself in his (Cameron's) behalf.

4. How did the *American* ascertain that men of all parties, K. N's included, would support Cameron for County Judge.

5. What party he belongs to, whether the Democratic Republican, or the "Buchanan Democratic" (the latest *counterfeit.*)

The *News* holds the demand of its correspondents to be a "proper" one and calls upon Mr. CAMERON to "appear and answer." We wait with some curiosity to see whether that gentleman will plead to the jurisdiction, or join issue with his anonymous assailants.

The Great American Fire-Fly Card Press.

As we stated yesterday, we have just put in operation in the *Sentinel* Job Office, one of GORDON's celebrated Fire Fly Card Presses. Many of our citizens were in yesterday to see it in operation, and wondered at its rapidity of action, its accuracy and beauty of work.

Mr. Gordon, the inventor, says very truly of this machine:

"The machine is very strong and simple, and occupies but little room, and may be worked with ease by a boy. It is quickly made ready, and in all its movements works with unerring certainty—INKING, FEEDING, PRINTING, CUTTING and COUNTING ITS OWN CARDS from a continuous strip of card board. Its distribution is rotary, with a double set of inking rollers, alternately inking the form. The vibration is beautiful—four rollers vibrating, or two in each set. This is admitted by all to be not only the Fastest, but the Best, and Cheapest card press ever yet invented. It is capable of printing from 8,000 to 20,000 per hour. Owing to its great rapidity, and the almost incredible amount of money it will earn in a short space of time, but one of these presses will generally be required in a city; therefore BUT ONE, with the EXCLUSIVE RIGHT, will be sold. The press should be seen in operation to be thoroughly understood, or a correct estimate formed of its value."

So much for the inventor's own judgment of his machine. We add a few extracts from letters from persons who have thoroughly tested them:

From FRANCIS HART, 63 Courtland St., N. Y.

The rapidity with which it prints cards, which seems to be limited only by the tenacity of the composition rollers, is wonderful, and immensely satisfactory; but with me, the most gratifying quality in the machine is the beauty of the impression, in which it excels all presses of which I have any knowledge. The impression is scarcely discernible on the back of the card.

* * * * * * * * *

The impression is beautiful, greatly resembling copper-plate; and the distribution of the ink is so perfect, that there is a charming uniformity maintained in color.

From HOWELL EVANS, South Fourth St., Philadelphia:

It is not beyond my recollection, when 250 impressions per hour was thought to be pretty rapid printing; and so it was then, but now we have a Press that travels, or prints, and counts the cards, very much in the same comparison to the old hand press (and a great many of the new patents) that the locomotive bears to the old Conestoga be-belled wagon, with its eight horses, feed chest and engineer.

* * * * * * *

It is fully competent to print *ten thousand cards per hour*, and may be, and has been so constructed as to print *twenty thousand cards per hour*, equally as well, with a clear, sharp impression, as can be produced on any press extant—and added to the advantage of such *unequaled speed*, it cuts and counts the cards with the greatest accuracy. It will print the finest enameled surface card with as much delicacy of impression and evenness of color, as can be done on any press, and at a much greater speed. I have been so pleased with the press, in all its operations, as to be able cheerfully to say, that I do not regret having purchased one of them, and with it the right of our city. It is an old saying, "seeing is believing," therefore I would advise everybody to call and see the press, and if they ever patronize the printer, and require cards, I am certain they will leave an order, and go away well satisfied.

From Emery N. Moore, Boston:

I have frequently printed on the press the astonishing number of *eight thousand cards per hour*, and printed them better, in every respect, than could have been done by any other machine that I have any knowledge of, and I believe I have had something to do with almost every card press for the last twenty years; in short, I may say, without fear of contradiction, that the Fire Fly Card Press is the "*ne plus ultra*," and cannot be surpassed, and must necessarily give any one using it the entire monopoly of the card business.

From Houghton & Co., *Advertiser* office, Galena:

We regard it as the greatest invention of the age, and though we felt at the time of purchase that we were paying an enormous price for a press that would only print cards, yet we are convinced that it is by far the cheapest press extant. It will earn more money than any two machines we ever saw. You ask us if we would be willing to sell our press and right for $5,000. We answer, emphatically, no! We find that with the great increase of card printing, we have also an increase in a corresponding rate in our other printing; orders are flowing in from all quarters. Why? Because we can now compete with the largest eastern houses, and can do printing as cheap as your Chicago printers—the best and fastest. We can now print cards and deliver them to our customers for a less sum than we formerly paid for blank cards.

From C. N. Morris & Co., Cincinnati:

The Fire Fly Press can do all we could wish, and we can safely say that card printing is at its zenith when applied to this machine; and in the long run, when we have 20,000 or 30,000 cards to print at one time, the last thousand will look equally as well as the first thousand.

We again invite our readers to call and witness the operation of this machine, and see if the half has been told them.

MIL. & WATERTOWN R. R. EXTENSION.—Lowell Station has been, some days since, reached by Graham & Scott, in their work of putting down the track of the extension road. The Columbus *Journal* of the 4th inst., says: "We learn that the track of the Watertown and Columbus Railroad is now in running order to Lowell Station, and we presume the whistle can be heard in a favorable day for hearing distant sounds. We hope now soon to be able to announce to our readers and the rest of mankind that the iron horse has made his appearance in Columbus."

THE CORN EXCHANGE AFFAIR.—The Albany correspondent of the Rochester *Union* says that a requisition has been made on Gov. King for the arrest and surrender of William Breck. He was indicted for conspiracy to defraud, &c., in the matter of the Corn Exchange Drafts. But Gov. King refused to grant the authority necessary for Breck's arrest, on the ground that the conspiracy, if any, could not have been entered into in the State where the indictment is found. Consequently Mr. Breck is safe for the present.

TWO GOVERNORS DECAPITATED.—The President has nominated and the Senate confirmed, J. PATTON ANDERSON, as Governor of Washington Territory, *vice* Gov. STEVENS removed, and Col. SAM. MEDARY, of Ohio, as Governor of Minnesota, *vice* Gov. GORMAN, removed.

The Supreme Court of the United States—Jefferson's Prediction in regard to it fulfilled.

THOMAS JEFFERSON, with a prophet's ken, foresaw and foretold the danger to the people which would surely come from the irresponsible constitution of the Federal Court of last resort. He feared that the time might come when the members of this Court, appointed for partizan services, and swayed by partizan motives, might, secure in that irresponsible capacity, decide against the liberties of the people, and the rights of the States.

The following is the language of JEFFERSON, penned thirty-five years ago, on this subject:

We already see the power installed for life, responsible to no authority (for impeachment is not even a scarecrow) advancing with a noiseless and steady pace to the great object of consolidation. The foundations are already deeply laid by their decisions for the annihilation of constitutional state rights. This will not be borne. You will have to choose between reformation or revolution. If I know the spirit of this country, the one or the other is inevitable.

Contrary to all correct example, they go out of the question before them, to throw an anchor ahead, and grapple further hold for future advances of power. They are then, in fact, the corps of sappers and miners, steadily working to undermine the independent rights of the states.

Nothing in the constitution has given them a right to decide for the executive, more than for the executive to decide for them.

The opinion which gives to the Judges the right to decide what laws are constitutional, and what not, not only for themselves in their own sphere of action, but for the Legislature and executive also in their spheres, would make the judiciary a despotic branch.

If this opinion be sound, then indeed is our constitution a complete *felo de se*. For intending to establish three departments, co-ordinate and independent that they might check and counterbalance one another, it has given, according to this opinion, to one of them alone the right to prescribe rules for the government of the others—and to that one too, which is unelected by, and independent of the nation.

How remarkably does this language apply to the decision of Chief Justice TANEY and his associates of the majority of the Court, in the Dred Scott case!

With what power do those words come down to the free people of the Union in this hour,—

"THIS WILL NOT BE BORNE. YOU WILL HAVE TO CHOOSE BETWEEN REFORMATION OR REVOLUTION. IF I KNOW THE SPIRIT OF THIS COUNTRY, THE ONE OR THE OTHER IS INEVITABLE!"

COSMOPOLITAN ART UNION—PRIZES FOR WISCONSIN.—From the March number of the *Art Journal*, we learn that the number of subscribers to the Union in Wisconsin was 840, and the list shows the following prizes:

WILL OF IRA COUCH.—The will of the late Mr. Couch of Chicago, formerly owner of the old U. S. Hotel in this city, has just been proved. He left property valued at nearly a million of dollars. The property goes principally to his widow and daughter, with several legacies, among which is $10,000 per annum for 20 years to his brother, James Couch. After that time, the property is to be divided between the wife and daughter.

The Decision Overruled in New Hampshire.

The vaulted basement of the Capitol, where the Supreme Court sits, is not the only place where judgment has been passed on the slavery question. There is a higher Court, where they administer a higher Law. Down from a Court Room whose pillars are Granite Hills, with capitals of snow, and whose roof is the arch of Heaven, comes the verdict of the Tribunal of Last Resort—THE PEOPLE. Here is *their* decision:—

No More Slave Territory!
No More Slave States!
A Republican Governor!
A Republican Legislature!
All Republican State Officers!
All Republican Congressmen!

Albany Evening Journal.

Milwaukee.

Many of our readers are beginning to think of filling up their stores for the Spring Trade. For the first time, the great commercial city of Wisconsin will be visited by the Merchants of Iowa and Minnesota. The convenience and certainty of freight delivered by Rail Road to Prairie du Chien and McGregor, the convenience also of shipping produce to the Lake in its passage Eastward, will place the Milwaukee Road and its Eastern Terminus very favorably before the North Iowa Public. We have heard many of our merchants inquiring about the place and its business, and we are glad to be able to refer them to an advertising column in the *Times*, for an answer. We do not know if Milwaukee has the Mercantile spirit to contend for the immense trade that is waiting her motion, on the West Bank of the Mississippi; but from the spirit with which Henry J. Nazro & Co. enter the lists, we conclude that they at least are fully up to Chicago Houses in the style, variety, quantity and cheapness of their goods. We are persuaded that no Merchant or Mechanic who reads our paper will fail to call on Nazro & Co. They deserve this compliment from every man on this side the River—*they are the first Milwaukee Men* who have invited you to do your trading at your natural Lake Depot. There may be other Merchants in Milwaukee, who would like to trade with Northern Iowa, but as they have not given notice of the fact through our Western Journals, we conclude they already have more customers then they can accommodate.—*McGregor (Iowa) Times.*

GROWTH OF TWO RIVERS.—A correspondent of the Manitowoc *Tribune* gives the following information as to the growth and prospects of Two Rivers:

The growth of Two Rivers has been quite rapid during the past year, and a greater number of dwelling houses have been erected during that time than any previous year. Manufactories are on the road to completion, and many similar enterprises under contemplation. The most conspicuous of these establishments is the "New England Manufacturing Company's."

It is already nearly completed, and it is expected that the saw-mill, consisting of four circular saws and planing Machine will be in operation day after to-morrow. The Jinger Mill, is ready for operation, most of the works will likely be completed in two or three months. When completed it will be a great and valuable work, and a credit to the Village.

The New Episcopal Church is going forward to completion, and will be another evidence of enterprise, besides a credit to the Village.

Aldrich, Smith & Co's. vessel is progressing rapidly towards completion, the contract expires the 20th of April. Ten men are at work on it at present, and more may be expected as soon as the weather is more favorable. The following are the dimensions. Length of keel 112 feet, length of deck 115 feet, depth of hold 9 feet, breadth of beam 26 feet. A Canal boat is also under construction under the direction of C. Winn & Bro., C. M. Herbridge, contractor, to run on the Illinois River, and will probably be completed about the middle of April. It is 100 feet long and 18 feet broad.

THE LOST CHILD.—The Manitowoc *Tribune* has the following in relation to the lost child, mentioned some time since as thought to have been carried away by Indians:

Mr. A. J. Vieau, writes from Green Bay, and informs us that the old chief of the Mishicott Indians, has requested him to give notice through the columns of the *Tribune*, that every exertion will be made by him to detect the perpetrator of the outrage, and if it was committed by any of his people, he pledges himself to deliver the criminal to justice.

He expresses the most profound sympathy for the unfortunate father, and is anxious to do all in his power to prove its sincerity.

At the time of writing this article no tidings have been received from the lost one, though the woods have been scoured in every direction; hope has doubtless long since died out in the bosoms of the bereaved family.

The Recent Railroad Catastrophe in Canada.

FIFTY-FIVE BODIES FOUND.

List of some of the Killed and Wounded.

The Toronto *Globe* of the 13th inst came to hand last evening. It contains some additional particulars of the dreadful occurrence, which we append:

From the Hamilton Banner Extra.

Another of those accidents which human forethought appears inadequate to the task of preventing, took place this evening, near this city. The train from Toronto, which is due at 5 45, had scarcely touched the swing bridge over the Desjardin Canal when it gave way, and the whole train was precipitated into the water, a distance of forty feet.

The engine, (the Oxford,) tender and baggage car were all completely buried in the water. The forward passenger car in descending was turned upside down, leaving a portion of it only above the water. The forward end of the last passenger car rested upon either the engine or baggage car, and falling back upon the wall supporting the bridge, remained in nearly an upright position.

Immediate assistance was had from the different shops and persons that were engaged on the works. All that were in the last car, were taken out—mostly wounded, and, we are sorry to say, too many *dead.* A hole was cut in the bottom of the car, which lay across the canal, and the bodies taken from it as rapidly as possible; but this could not be otherwise than a slow operation when it is considered how intensely cold the water is at this season of the year, and the depth was sufficient to hide an engine, tender and baggage car.

Mr. Muir, the traffic superintendent, was on board, but fortunately was in such a position at the time, as allowed him to jump on *terra firma* as the car took the leap into the frightful abyss, where so many of his fellow passengers were hastily hurried into the presence of their Maker. Mr. John C. Henderson, Mr. Brydges' brother-in-law, we are sorry to say, was among the killed. Mr. Barrett, conductor on the train, escaped without injury. The Express Messenger, Post-office Clerk and conductor (Richardson) escaped from the baggage car, when submerged in the water, by climbing upon the top.

Amongst the killed is Mrs. P. S. Stevenson, of Hamilton, daughter of Mr. Sheriff Thomas.

Seventeen bodies were taken to the baggage room, and laid by side. All, with the exception of two, were recognized. The following is a list, as near as can now be arrived at:

1. Donald Stuart, of Hamilton.
2. A man with "A. Grant" marked on his shirt bosom.
3. Mr. Russell, of the firm of Mellish, Morrell & Russell, of Brantford. A very large amount of money and a number of papers were found on the body.
4. A man unknown, about 20 years of age, with light hair and dark dress.
5. Joseph Barr, of Niagara. In the pocket-book of this person was found a note due yesterday, to Bryce & McMurrich, Toronto, for £249. Other memoranda were found, making it certain who he was.
6. Female, with some American gold in her pocket, and two rings on the wedding finger—one of which was marked "A. D."
7. James Gannon, a stout light-complexioned man, about 20 years of age; had on a grey undershirt; no whiskers.
8. Samuel Zimmerman, railroad contractor of Clifton.
9. Thomas Benson, merchant, of Port Hope.
10. John Sharp, a book vender, at the depot.
11. Rev. A. Booker, father of Major Booker of Hamilton.
12. Erastus W. Green, of Hamilton.
13. A little boy about 3 years of age.
14. Little girl, daughter of J. K. Clare, of Hamilton.
15. John C. Henderson.
16. Female, about 30 years of age. Had on a slate colored silk poplin dress and cloak nearly the same color.
17. Unknown tall man, about 40 years of age, hair slightly grey.

Besides the foregoing, the flour store, we believe, contains 19 bodies, laid side by side—16 men, 2 women, and 1 child. The sight is awful and heart-rending.

Three of these bodies had been recognized at the close of the coroner's examination, at fifteen minutes past 10 o'clock. These were:

Edward Duffield, Hamilton.
Rev. D. Heise, Hamilton.
John Morley, of Thorold.

Four more bodies have since been discovered, which makes the total number of bodies found FORTY.

It is difficult to arrive at the number on the cars. It is stated that 80 persons left Toronto, but what change took place at the intermediate stations we have no means of ascertaining; only about ten or twelve escaped uninjured.

The number injured has not yet been ascertained, but we learn that among them were the following:

Thos. C. Street, of Niagara, and his relative, Dr. Macklem, of Chippewa. Both of them badly hurt.

H. M. Yerrington, of Port Stanley, received a confusion on the head; not seriously injured.

Captain McBride, of Port Burwell; cut over the right eye.

Several other persons are known to be injured but we have not been able to ascertain their names.

LATER.

Since writing the above, we have been informed that there is no doubt whatever of the locomotive having run off the track ere it reached the bridge.

Capt Southerland and Adam Ferrie, Jr., were upon the train, and are no doubt amongst the dead, although their bodies have not been found.

Mr. John K. Clare, merchant, James street, was upon the car upset into the canal. He had his little girl by his side, and when the car was descending she got loose from him in some way. He was sitting two seats back from the stove, and with it was thrown forward. He scarcely knew how he escaped; indeed, it is miraculous. He crawled through the window. He looked for his child, but could not see her; no doubt she is under the water.

"D. Stuart" is Mr. Donald Stuart, merchant, Hamilton.

The body of a woman, aged about 33, with a gold watch and chain, has not been identified.

A man, aged about 40, with a ticket from Toronto to Paris.

Edward Duffield was last mate of the Europa.

Mr. Barton, Senior, of Stratford, is dead.

Mr. Curtis, Ingersoll, has an arm broken.

LATER—FURTHER PARTICULARS.

(Special Correspondence of the Globe.)

Immediately on receiving intelligence of the catastrophe, two gentlemen from the *Globe* office left town for Hamilton, and just before going to press the following despatch came to hand:

When your reporters reached the scene of the accident, they found the workmen engaged in hauling out of the water with a crane and pulleys, a section of the bridge, which lay upon the surface of the ice, with the view of reaching the first passenger car, which is entirely submerged under water. The second passenger car (half broken) lay on the bank of the base of the bridge, and it was from this that all the saved and the dead bodies have been taken. In the other, many feet below the water, lie buried fifty or sixty human beings, who left Toronto in confidence of reaching their journey's end.

The draw-bridge was about 20 or 40 feet above the water, and the fall must have been tremendous. The locomotive and tender have not been seen at all.

Roads have been cut in the face of the bank, and the passengers and the baggage of the train from the west were conveyed by them past the gap. The bridge was on the main track of the Great Western, not on the Toronto and Hamilton section, as was supposed at first in Toronto.—The whole framework of timber between the great stone piers is gone, with some portion of the swing platform. A large number of persons came up by the night train from Toronto to learn the fate of their friends. They found the buildings containing the bodies closed, and no opportunity of identifying them. It was ascertained, however, that Mr. Chas. Brown, late merchant of Galt, was among the number of the killed. The body of Mr. Adam Ferrie, junr., was also found after long search. It is supposed that between fifty and sixty persons were taken from the second car, and that as many were in the first—making altogether a hundred passengers. As not more than ten or twelve were saved, the loss of life must be about ninety.

Mr. Street was cut on the head, and had some flesh wounds, but is otherwise uninjured. Dr. Macklem, contrary to previous reports, has no bones broken, and is now asleep. Both gentlemen were removed to the City Hotel.

Mr. Morrell, of Brantford, was not in the cars as reported, but Mr. Russell, his partner, as well as Mrs. Russell, are among the dead. Mr. Mellish, another partner, reported dead, is safe in Brantford.

Among those who were on the cars was Edward McPhilley, aged 20, tinsmith, lately in the employ of Mr. Armstrong, and going to Buffalo.

The body of Mr. Zimmerman has been removed to the house of Mr. Roach. Mr. Zimmerman had a severe cut across the face, and his body bears the marks of great pressure, his arms being so stiffened as to make it impossible to straighten them.

Capt. Southerland and one of his sons were on board, as was Capt. W. Twoby, and all are, probably, in the submerged cars.

Some anxiety was felt for the safety of Mr. Kirby, of Brandtford, but he was not in the cars.

There were twenty-one bodies in the flour store near the wharf, among whom were three females. With the exception of Mr. Ferrie, there were no marks to be seen.

Some of the escapes were almost miraculous. Two railway men, Mr. Reed, of Suspension Bridge, formerly of the Northern Railroad, and Mr. Hall, of Toronto, were standing on the platform of the front car, and jumped off without injury.

Mr. Farr was still alive at the last accounts, but no hopes were entertained of his recovery.

The Detroit *Free Press* of the 15th contains a letter from Mr. David Manger, relative to the disaster, from which we extract the following:

"There can be no doubt but that an axle of the locomotive or tender broke just as the train was close to the bridge, and that the engine driver was aware of it, for the reason that he looked back and saw the conductor upon the steps of the forward end of the rear car, and yelled to him at the top of his lungs "*For God's sake, jump!*" The conductor instantly opened the front door of the car and repeated his words and they jumped. Mr. Muir, the Superintendent of the road, and Mr. Jessup, Auditor, were in the hind end of the car, and stepped out and jumped and saved themselves, as did also two or three others. These words were the last uttered by the engine-driver, who evidently knew that he was irretrievably lost."

(From the Hamilton Banner, 14th.)

The excitement in the city, directly after the news spread, was intense. Hundreds swarmed towards the Great Western depot, and streamed along the line to the fatal spot. There the scene presented was such as to baffle description.—Large locomotive lamps were speedily brought. Fires were kindled, and a lurid glare was thrown over the shattered remains. Special trains were despatched to the bridge to bring home the wounded. It was no easy task to descend the steep slope to the canal. Ropes were lowered and ladders attached to them, on which the dead and wounded from the car which stood endways were first drawn up. Then the bottom of the car which had partly sunk through the ice was hewn away with axes, and the unfortunate passengers, some sadly mutilated and even cut to pieces, and all saturated with water, taken out.—Many worked with energy and vigor; but who was that noble fellow that every one must have seen, stripped to his shirt sleeves, standing up to his middle in the freezing water, who, himself a host, did more than all the rest? We watched him long from the heighth above, as he hewed away the fragments and extricates the bodies. If ever a man deserved a reward, it was he.

The M. & M. Rail Road.

From the Prairie du Chien Courier.

The completion of the Rail Road to this place, is near at hand. A train is now making regular trips to a point within this county. It has crossed the last bridge on the Wisconsin River to the west side, a short distance from town, and is expected to "come into camp" early next month. Two gangs of laborers are engaged night and day, laying the track as fast as men can. Mr. Brodhead is superintending the work, putting it through with all his well-known energy. For example, he starts for the scene of his labors every morning on the first train, dressed for work in his india rubber overcoat and thick boots, and there remains till night, making things stir in a way not agreeable to drones.

Great preparations are being made at this end of the road, for the transaction of business, which will be greatly increased when it is finished. Expectations of future prosperity to result from the road prevail among our citizens with every appearance of being soon realized. Ask a merchant here, when he intends to get on his stock, and he invariably answers, "when the Rail Road is completed between Prairie du Chien and Milwaukee." But expectation is not confined to Western Wisconsin, for the feeling extends through all the North-West, and it is safe to anticipate its adoption of this route, as the grand thoroughfare of communication with the East. That the City of Milwaukee will be the reservoir of the North Western trade, and the many resources of the West developed by this route, is obvious. As the importance of Prairie du Chien is also to be increased, we say, speed the dawning of the new era to be established by commerce and the Iron Horse.

A PRECEDENT.—The attempt of the Supreme Court of the United States to *decide* negroes out of the lists of humanity is much like the attempt of the Romish Inquisition to decree that the earth did not revolve around the sun. Unfortunately for the Chief Judge the Almighty decided differently several thousand years ago.—*Cleveland Herald.*

☞ The "magnificent service of silver plate" presented to President PIERCE by the City of Savannah, consisted of but six pieces, a soup tureen, two oyster dishes, two venison dishes, and one fruit-bowl. Some other Southern cities ought to make up the other twenty-four pieces.—*N. Y. Times.*

LUMBER BUSINESS IN THE EAST.—The Boston *Traveler* has the following article on the subject of the lumber trade for the past two years:

Lumber Business.

For the last two years manufacturers of lumber and holders of timber lands have suffered much from the vast quantity thrown upon the markets of New England and New York. When the war in Europe commenced the price of white pine deals, at Quebec, was about £16 stand, for No. 1, £11 for No. 2, and £5 to £8 No. 3, so that a good lot of Ottawa Pine would average about $16 per thousand feet board measure, at Quebec in raft; deal from the Saginaw and other branches of the St. Lawrence was from $13 to $14, board measure; this was in the fall of 1854. In the spring of 1855, in England, lumber had fallen about $7 per thousand, board measure, and freights advanced ten dollars per M from Quebec, which more than equalled the value of lumber in the fall 1854. This was caused by the vast number of ships required by the English and French governments, to transport the munitions of war, troops, and also coals for the use of the steam navies in the north of Europe. These ships had no freight back, except lumber, which was low in price, as a blockade was expected, and all availed themselves of the low freights from North to South, to ship all the lumber possible to the South, for a market, which flooded all the markets upon which the American lumbermen relied, and early in the spring of 1855, the dealers of lumber in Nova Scotia, New Brunswick and Upper and Lower Canada, held for the markets of the United States a surplus amount of lumber exceeding 600,000,000 feet and at such prices as would ruin every large manufacturer in New York, New England, and the British Provinces. It has failed a large majority, and for the sole reason that they could not hold over their lumber, but must sell at some price.

The rapid rise in the price of lumber at Chicago in the spring of 1855, had the effect to take off a large quantity of the lumber of Western New York, Upper Canada, and some from Lower Canada, and with the constantly increasing consumption of New England the vast quantity of lumber held two years ago by the manufacturers has been nearly all consumed, so that the exceeding small cut this season in the forests of Maine, and the value of lumber in Europe holds out to the manufacturers an object to economise in the pushing of sales early this season.—Freights will be low to Europe this season, and the fact of ships coming out the coming spring will have the effect of increasing the value of lumber at Quebec and all the British Provinces above named. The constantly increasing trade of Upper and Lower Canada increases the number of vessels wanted every year, which has the effect to keep freights down and raise the price of lumber for the English markets.

W. LAIDLAW'S LAND AGENCY,
OFFICE 230 EAST WATER ST.
Two Doors South of Walker House.

FOR SALE.
A Farm That is a Farm.

THIS FARM is situated in the handsomest portion of our fair State, within a short distance of a Railroad depot, bordering on a small lake of the purest water, with bold and beautiful shores, some mile and a half in length and three-fourths of a mile in width. The owner, on account of ill health, is obliged to give up the farming business, and will therefore give any man who has the means, a chance to purchase a princely farm on easy and reasonable terms and at a great bargain—Said farm contains 480 acres, whereof about 200 are cultivated, 60 acres meadows and the balance fine heavy oak timber. 70 acres of wheat were raised on the farm last year and yielded 25 bushels per acre, which is all that is necessary to say in reference to the quality of the soil, and as regards buildings—dwellings, barns, sheep and cattle sheds, &c. &c., they are all that can be desired on such a farm, the orchard is very large and contains almost every description of fruit, and there are 7 miles of fences on said farm.

This is undoubtedly the best chance offered in the State to procure a splendid farm. For further particulars of which, apply to the sole agent,

THE ONLY MEDAL AWARDED

BY THE NEW YORK EXHIBITION to the English or Foreign Sauce Manufacturers has been obtained, amongst numerous competitors, by LEA & PERRINS, for their
Worcestershire Sauce,
Whereby further testimony is afforded of its being the best Sauce extant.

The celebrity of this Sauce has extended to every quarter of the globe, and its efficacy in promoting the general health is becoming daily more observed and acknowledged.

In the United States it is held to be the most agreeable condiment, and is esteemed for its tonic and invigorating properties, its habitual use enabling the stomach to digest the food.

On the Continent of Europe, these qualities have been testified to by a gentleman who writes to LEA & PERRINS thus:—"I have carried a bottle of your Worcestershire Sauce in a tour I have just completed through Spain and Portugal, and believe I owe my present state of health to its use; your Sauce is stomachic, and I think medicinal. I can with truth say there is nothing in a traveller's baggage so essential to his comfort, at least in these countries, as your Sauce."

In India, also, where it is found at the mess of every regiment, a medical gentleman writes from Madras to his brother in the same profession at Worcester, in the following terms:—"Tell Lea & Perrins that their sauce is highly approved in India, and that it is in my opinion the most palatable as well as the most wholesome sauce made."

This Sauce is suitable for every variety of dish, and the universal demand which its excellence has created, has led to many imitations being offered to the public, under a variety of names, but the genuine may be known by the names of "LEA & PERRINS" being impressed upon the patent metallic capsules, or patent glass stopper of the bottle, as well as the labels and wrapper.

BADGER STATE SAFES!
FIRE & BURGLAR PROOF!

THE WIDE EXTENDED and constantly increasing reputation which our safes have acquired, for unequalled durability and finish, warrants us in calling the attention of the public to our increased facilities for manufacturing the same.

The numerous improvements which we have added to our Steam Works, (Nos. 215, 217 and 221 East Water St.) places us beyond the reach of competition in our line of business.

The severe tests which the Badger State Safe has stood both in this city and elsewhere, establishes its proof against fire and water, for the protection of valuables.

Mass Meeting.

FIRST WARD.—A Mass Meeting of the Electors of the First Ward is requested to meet at the house of PETER THEIS, corner of Jackson and Ogden streets, on Wednesday evening, the 18th of March, at 7½ o'clock, to select Ward officers for the ensuing year. *

☞ Country Merchants visiting our city can find the principal Wholesale Houses in the Business Directory column of this paper.

MILITARY BALL AT CHICAGO.—The National Guard Cadets, one of the crack Military Companies of our sister city, Chicago, give their anniversary festival at the Light Guard Hall to-morrow evening. They will be happy to see and welcome, at their ball, as many representatives from the Military of Milwaukee, as can make it convenient to attend. The entertainment will be one of the finest of the season. The Chicago *Journal* thus speaks of the Cadets:

> In the way of military spectacles, there is none more beautiful in this city, than that of the NATIONAL GUARD CADETS. Admirably equipped and officered, and thoroughly drilled, they have almost the bearing of a corps of veterans. True, some of them have not tarried at Jericho till their beards be grown, but the manly exercise, the rigid discipline to which they subject themselves, will hasten the march of the youngest of them all, to mature manhood.
>
> The energy of the officers and members of this youthful corps has placed it in the front rank, and their accomplished patrons, the Light Guards, will ere long be compelled to look to their laurels.
>
> We learn that the Cadets have perfected their arrangements for an anniversary ball, to be given on the 19th instant, at the Light Guard Hall. They design to render it complete in all its appointments, and, if such a thing may be, the festive occasion of the son.

"ONLY ONE DIME TO SEE A GIANT."—Up near the Walker House is a huge picture of a huge man, dressed in Highland Kilt and brief continuations, and there or thereabouts, as we passed last evening, we stopped to listen to a discourse, which ran in this wise:

"He is a curiosity, gentlemen—this giant-boy—only one dime—he's nature's own curiosity—walk in—he was born in the wilds of Kansas—only one dime—and is well worth it—walk in—his father was a Scotch-woman—one dime—and his mother was a Shawnee chief—walk in—he is a wonderful boy, and speaks four languages—one dime—Ottowa, Delaware, Wyandotte—walk in—and English—he is 7 feet 4½ inches high—and only one dime to see him—this giant boy—walk in..&c., &c."

And as we went away down the street, that tongue, as if hung upon a pivot, ran on with its invitation—"Only one dime, gentlemen—walk in!"

CORRECTION.—In our report of the Common Council proceedings published in yesterday's *Sentinel* we stated that "the 3d Ward Schoolhouse was likely to fail;" this remark should have applied to the 5th Ward Schoolhouse, which is "deemed so dangerous to the lives of the children and teachers, that it has ceased to be used as a public Schoolhouse;" and is such "as to make its destruction inevitable as soon the frost leaves the ground." The communication further says: "The present condition of the 3d and 5th Ward Schoolhouses, are standing witnesses of great carelessness and want of economy in the use of the people's money."

BOARD OF TRADE—MEETING TO-MORROW.—It is proposed to have a special meeting of the Board of Trade, at noon to-morrow, to take into consideration the proposed ship canal between Lakes St. Clair and Erie, avoiding the Flats and saving 150 miles, more or less, in distance. The subject is one of peculiar interest to the Commerce of Milwaukee and will, we hope, attract a full attendance and enlist the earnest consideration of the members of the Board of Trade.

ANOTHER LECTURE BY REV. J. C. RICHMOND.—Mr. RICHMOND lectures again, as will be seen by the notice in our special columns, at the Albany Hall to-morrow evening. His subject is announced as the *Saxon Strength of the English Tongue, or How to Write and Speak English.* The theme is a fertile one, and all who hear Mr. Richmond treat it will listen to an interesting and instructive lecture.

CHARTER ELECTION—FIRST WARD.—A Mass Meeting of the electors of the First Ward is to be held at the house of Peter Theis, corner of Jackson and Ogden streets, at half-past 7 o'clock *this* (Wednesday) evening, to nominate candidates for Ward officers. A full attendance is requested.

FIREMEN'S FESTIVAL AT JANESVILLE.—The Members of Water Witch Engine Company No. 3, of Janesville, give their second Annual Festival *this* evening, at Lappin's Hall. We hope that some of our Milwaukee boys will be on hand to enjoy the hospitalities of their brother firemen of Janesville.

MILITARY.—The Union Guards, Capt. O'NEIL, turned out, yesterday morning, in honor of St. Patrick's day. They mustered strong and looked and marched well. Our Military Companies are all improving under the effect of that spirit of emulation now rife among them.

ST. PATRICK'S DAY.—The Union Guards held a Festival at their Arsenal last night. A large company was present to partake of a good supper; speeches, toasts, &c., was to be the order of the evening. We shall notice the Festival more fully at a future time.

ALDERMAN OF THE FIRST WARD.—We understand that Mr. WM. HENRY WRIGHT has been proposed and will be warmly supported, as a candidate for Alderman of the First Ward. Mr. Wright would make an honest and efficient one.

ANOTHER SNOW-STORM.—A snow storm set in, yesterday afternoon, with a light air from the South East, and by 9 o'clock at night several inches of soft and damp snow had fallen, with a prospect of more before daylight.

TO GRADERS.—The attention of graders is invited to an advertisement of Mr. Fillmore's in this morning's paper.

INTERESTING TO LAWYERS.—See advertisement of STRICKLAND & Co., in to-day's paper, relative to Books, Forms and Blanks under the *New Code.*

PINNEY YOUNGS' PATENT SAWING MACHINES.

PATENTED JANUARY 30, 1855.—REISSUED OCT. 2, 1855.

THIS IS TO CERTIFY, That we purchased the first Sliding Mill built by Pinney Youngs, of Milwaukee, and that we have run the same Machine at our Mill at Bay de Noquet (Mich.) the past two years, and that it has exceeded our expectations. We have no hesitation in saying that it will cut Two Thousand Feet, superficial measure, per hour, and upon a trial of twelve hours we cut 23,184 feet, superficial measure, of Flooring and Siding.

N. LUDINGTON & CO.

Milwaukee, Sept. 18th, 1855.

This is to Certify, That we have used one of Pinney Youngs' Patent Sawing Machines or Sliding Mills, for about one year, and find it the most perfect Machine we have ever seen. It is easily kept in order. We have expended but a shilling for repairs on it as yet.

We have never seen any Machine of the kind that will in any way compare with this. It will cut nearly or quite double the amount of Lumber in the same time of any other mill we have ever examined.

The man that runs it has offered to bet one thousand dollars he could saw in this Sliding Mill Fifty Thousand Feet of Lumber within twenty-four hours—The lumber sawed in this mill is of universal evenness of thickness, which is not the case with any other we have seen.

We really would not exchange our Machine for any other ten machines of any other Patent we ever saw, for our own use.

OCONTO, August 18th, 1856.
BRAND & CO.

Algoma, August 30th, 1856.

Messrs. PINNEY YOUNGS & CO.:

Gents—We have in use, in our mill at Pensaukee, Green Bay, two of your Sliding Machines, and find them to answer our expectations in all respects. We prefer them to any we have ever used, or of which we have any knowledge. From the report of our Superintendent, we learn that one of your Machines cut during the week ending July 19th, 151,559 feet of lumber—mostly fencing and flooring—being about 25,000 feet every twenty-four hours. For rapidity and smoothness of sawing, as well as durability of construction, we think it cannot be equalled by any other Machine now in use.

Yours, truly,
F. B. GARDINER & CO.

THREE P. M. REPORT.

Further From Nicaragua.

NEW YORK, March 17.

The Daily *Times* says that letters from reliable scources in Costa Rica, have been received by the George Law, putting an entirely different complexion on the news which had previously been received from Col. Lockridge. It is stated that the engagement at Hipps Point amounted to nothing, and that the Costa Ricans retired in perfectly good order, loosing no arms, and suffering no defeat. It was believed that they withdrew in pursuance of a pre-arranged plan to permit Col. Lockridge to go up the river as far as Castillo, and then cut off his retreat. The report that Castillo had been taken, is said to be wholly foundation. Nor had Col. Lockridge captured 400 rifles, as was previously reported. The Costa Ricans were very confident that an attack on San Carlos, if made by the American force, will be repulsed, as the fort is well defended, and it is then designed to cut off the retreat of the assailants, and prevent their joining any re-inforcements that may arrive from the United States.

The Washington correspondent of the Herald says Col. Manyenny tendered his resignation to-day as Indian Commissioner, Col. J. B. Stedman of Ohio succeeds him. Ex-Gov. Medill takes the first comptrolership, vice Whittlesy resigned.

Senator Hale, of New Hampshire, and his daughter, are sick at Dover. They boarded at the National Hotel, when in Washington.

BOSTON, March 17.

The screw steamer Alps, with four days later news from Europe, is now thirteen days out for this port—she has not been signalled.

The steamer Circassion, with a weeks later intelligence, is now over ten days out for Halifax; but she was to touch at St. Johns, N. S., to leave her cargo, &c., she is not looked for at Halifax, before Wednesday or Thursday.

WASHINGTON, March 17.

Miss Lane, niece of the President, gave her first public reception at the White House to-day; the ceremony of the introduction was performed by the marshal of the District of Columbia.

The President has issued cards of invitation to a large number of distinguished sojourners here for his dinner party on Thursday.

Gov. Geary's Statement Relative to Kansas Affairs.

ST. LOUIS, March 17.

The *Democrat* publishes a statement relative to affairs in Kansas given by Geary. The cause of the Governor's resignation is in consequence of the failure of Pierce to fulfil pledges made to him at the time of his appointment. These pledges were to support him, Geary, with army, militia, and treasury, if necessary, but instead of receiving this aid, he has paid $12,000 out of his own pocket to support the administration; he has been refused military aid under the most urgent circumstances, and thwarted by the judiciary of the territory in every possible manner. The Governor states that fifty men were under oath from the day he entered the country till he left, to assassinate him, provided his official career did not meet their approval.

The Governor regrets the step he is obliged to take. He feels confident that if the promised assistance had been rendered, he could have administered the affairs of the territory, in a manner acceptable to all honest settlers.

In relation to the outrages committed by the pro-slavery party, he says *the half has not been told.* He pronounces the murder of Buffum, by Hayes, the most cold blooded and atrocious affair ever witnessed.

The Governor complains bitterly of obstructions and mutilations of his correspondence. He says the mail has constantly been opened and all objectionable matter to and from him extracted. The governor thinks the establishment of a slavery constitution inevitable.

Later from California.

NEW YORK, March 10th.

The Geo. Law arrived this morning from Aspinwall, March 6th, brings upwards of $1,000,000 in specie.

The U. S. Ship Independence is lying off Panama. The steamer Sierra Nevada left San Francisco, Feb 2d, with 700 Recruits for Walker.

The news from California is unimportant.—Mining news rather favorable. There have been heavy rains in various parts of the State, causing much damage. The markets have been extremely dull. Flour quoted at $11.

Dr. Bates, State Treasurer, and G. W. Whitman, Comptroller, for misappropriation of State funds to the amount of $250,000, have been impeached by the Legislature. Dr. Bates resigned. Jas. English, ex Mayor of Sacramento City, succeeds him.

Twelve of a band of robbers, who recently murdered Sheriff Barton, have been hung by the people at San Diego.

An affray occurred at San Francisco, between J. A. Cohen, banker, and Thomas King, editor of the Evening Bulletin. Cohen was the aggressor; he received a pistol shot through the jaws.

Companies of fillibusters were being organized in the interior for the aid of Walker.

A bill to legalize the State debt has been introduced into the Senate and will undoubtedly pass.

Two shocks of an earthquake were felt at San Francisco on the evening of Feb. 5. Much consternation ensued—no damage was done.

A large body of fillibusters were bound to Sonora to join Gen. Dars.

Advices from the Mexican coast state that Gen. Blanchard had seized all vessels in the harbor, putting them under embargo, and was to leave in a few days with 700 men for the Capital.

Advices from Salt Lake to Jan. 7th, state that Heber Kimball was elected President of the Council.

Oregon dates to Feb. 12th. There had been an Indian outbreak near Fort Simcoe. Four white men and a large number of cattle were carried off.

There had been a great mortality among cattle in the neighborhood of the Dalles.

Advices from Washington Territory state that the Legislature adjourned on the 29th, after having considered the course of Gov. Stevens in the Indian war and the martial law affair.

Dates from Australia are to Dec. 2d. The mines yield immensely.

A fire at Adelaide had destroyed property to the amount of $500,000.

A flood at Nevada, California, had done damage to the amount of $70,000.

The inhabitants had made an attack on Pitt River Valley, Stark Co., and murdered all the inhabitants, burned the houses and killed all the horses, cattle, &c. The largest part of the inhabitants had previously left the valley with the intention of returning in the spring.

Large Funeral.

BUFFALO, March 16.

The funeral of Samuel Zimmerman, which took place this P. M. at Niagara Falls, Canada, was probably the largest and most imposing Masonic display ever witnessed in the country.—Large delegations of Knights Templars, Royal Arch and Master Masons were present in full regalia, from the various encampments of Western New York and Canada. It was attended by several members of Parliament and prominent men of Canada. The concourse of people was not less than 15,000.

The Rush for Kansas.

ST. LOUIS, March 16.

In consequence of the increased travel West, two passenger trains have been put on the Pacific Road to-day, connecting at Jefferson City with the lightning line of steamers for Kansas. The immigration to Kansas thus far this season, equals anything ever known in this country before.

Gov. Geary and his Secretary arrived here yesterday, en route for the East.

Another Supposed Case of Wife Poisoning in Massachusetts.

BOSTON, March 13.

The body of Mrs. Lavina Briggs, who died in Stoughton on the 27th ult., has been exhumed, and an analysis of the stomach shows that she was poisoned with arsenic. Her husband, Hosea Briggs, and a young woman named Adaline Drake, a boarder in the family, have been arrested on suspicion, to await the investigation of the coroner. The affair causes much excitement in Stoughton, where the parties have lived many years.

From Washington.

Special Dispatch to the New York Tribune.

WASHINGTON, Friday, March 13, 1857.

The Senate has closed up business, except some nominations that will be sent in to-morrow.

All the naval promotions resulting from the action of the late Reform Board were confirmed, with the concurrence of the retired officers.

Much satisfaction is expressed over the decapitation of Peter G. Washington. His successor, Mr. Clayton, is an old personal friend of Secretary Cobb.

The Sandwich Islands treaty was under consideration, and, by a vote of 30 to 14, a motion to lay on the table was defeated. On the direct test, it might be confirmed by a close vote; but the Louisiana and other Senators will talk it down if that contingency be probable. At least they threaten to.

Mr. Cameron was confirmed in his seat. The Indiana cases will be laid over to serve party ends.

No important diplomatic appointments will be made till May or June. A friendly disposition is entertained towards Mr. Aiken for a first class Mission.

Lord Napier is negotiating a lease for Senator Fish's residence.

Mr. Buchanan's health suffers from constant and exacting pressure. He is compelled to retire by 8 o'clock at night to recruit for daily demands. It is noticed that he exhibits signs of fatigue and age, and apprehensions are felt for the result by disinterested friends.

Mr. Whittlesey's resignation, though voluntary, was constrained by apparent circumstances

INSTRUCTION.

SALOM'S MERCANTILE COLLEGE!

A Perpetual Ticket for $25!

GENTLEMEN desirous of acquiring a thorough Mercantile Education, are assured that the advantages presented at this institution are unsurpassed.

The Principal takes this opportunity to acknowledge the courtesy of several of the most distinguished Shipping and Jobbing Houses in the East, who recently allowed him to examine their books, besides explaining many original plans for economising labor, which, adopted as in some instances after the experience of half a century, may be justly designated the *ne plus ultra* of the art.

These advantages, grafted upon Mr. SALOM'S long practical experience in a variety of Counting Houses, have enabled him to elaborate a novel and valuable series of transactions, introducing all the great heads and ramifications of mercantile routine to be actually developed by the student. A perpetual ticket confers the privilege of instruction in Book-Keeping at all times, as well as tuition in Writing, Mercantile Calculations, Law, Correspondence Forms, &c.

The Surveying and Mathematical department is in progress during the day and evening.

LESSONS IN Foreign Languages.

MR. AND MRS. L. S. H. DE CRETY, from Paris, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish Languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their house being arranged with that view.

Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr. DE CRETY furnishing books of the best French authors. Those too wishing to learn vocal music, in either of those languages, will find a competent music teacher in the establishment.

The hours of instruction will be from 9 to 11 o'clock A. M., and from 2 to 5 P. M. And in the evening from half past 6 to 8, for conversation.

Mr. DE CRETY will also give lessons in French, Spanish and Italian, at his office, to gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the Sword, and all military exercises. Persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises, improvement in their health, and acquire strength in their limbs and find an agreeable recreation.

Mr. De Crety will also form similar classes for children, from 10 to 15 years old, at his house, or office, as parents may prefer. Fathers and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few weeks trial, as to the effect of these different exercises upon their health.

The continued patronage of the public is respectfully solicited.

TO MERCHANTS.—Mr. DE CRETY will take charge of French correspondence to all the principal cities of France and will procure all Price Currents that they may want.

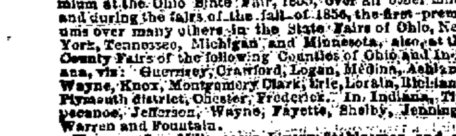
Every Man his own Miller.

PORTABLE CAST IRON GRAIN MILL.

Young America Improved and Perfected.



THE above mill was patented by Charles Leavitt, of Ill., Feb. 27th, 1855. This mill took the first premium at the Ohio State Fair, 1855, over all other mills, and during the fairs of the fall of 1856, the first premiums over many others in the State Fairs of Ohio, New York, Tennessee, Michigan and Minnesota, also at the County Fairs of the following Counties of Ohio and Indiana, viz: Guernsey, Crawford, Logan, Medina, Ashland, Wayne, Knox, Montgomery, Clark, Erie, Lorain, Richland, Plymouth district, Chester, Frederick. In Indiana, Tippecanoe, Jefferson, Wayne, Fayette, Shelby, Jennings, Warren and Fountain.

Farmers, Saw Mill owners, Livery Stable men, and all others feeding stock of any kind are invited to examine the merits and superior advantages of the above mill.

The Young America will grind as much corn in the cob, shelled corn, oats, barley, and all other grains for stock as any mill of the same size and with much less draft.

What we claim is great strength, durability, and simplicity, being so simple that a child can learn to grind with safety.

In the next we claim the small expense to renew the grinding parts of the mill, and the ease with which the grinders are put on the mill, at a cost of not over three dollars, which makes it superior and more economical than any other mill. The grinding parts of the above mill are made of the hardest of cast iron, as hard in fact, as cast steel can be tempered. Each set will grind from 5,000 to 10,000 bushels of grain, with proper usage. Besides the set of grinders on the mill, an extra set will be sent with each mill sold, making it equal to two common mills. When found necessary to change the grinders, almost any one can do it in twenty minutes.

As a proof of the estimation in which the Young America is held in Ohio, we would state that during the fall, winter and spring of 1855–56, 2500 were made and sold in Ohio, at Zanesville, by Douglas, Smith & Co., Hall & Allen of Mansfield; Eldridge & Faucenor of Cincinnati, and at New Philadelphia.

At this time there is not less than 200 being sold every week in Ohio, at retail, besides those sold in other states east and west.

The above mill is being manufactured and can be furnished at wholesale and retail, from the Wisconsin Iron Works of A. J. Langworthy, on the water power in the City of Milwaukee. The mill is warranted perfect in all respects.

Dealers in agricultural implements and machines of the State of Wisconsin, are requested to call and make arrangements for the sale of the above mills, to whom a liberal discount will be made on the retail price; also any others wishing to engage in a profitable business. Would call attention to good men who have teams, in any part of the State, who would peddle the mills through the country. Four can be taken on a wagon at a time—liberal arrangements would be made with them.

The above mill will grind from 8 to 20 bushels of grain per hour, in accordance with the kind and condition of the grain.

Price of the Young America $55—ready to hitch to and warranted to grind as fast as any mill of the same size when properly worked, and with less draft.

For further information address or see the undersigned, sole owner of the right to the State of Wisconsin.

For sale by W. HAROLD SMITH, Wisconsin Iron Works.

WOULD SUGGEST to the Trade, that they will be prepared for Spring sales with their usual extensive stock of the finer qualities of

READY MADE CLOTHING.

In reference to which they would suggest, that the facility with which their goods can be fitted, every garment being marked in lengths and breadths, the same size breast being varied to suit different proportions of the same measure, should give them the preference over any clothing, the sizes of which are indefinitely marked. The difficulty of really suiting patrons from that fact, it is presumed, has been very generally realized. HEALTHY BREAD!

MADE WITH

JAS. PYLE'S DIETETIC SALERATUS.

THIS article is deprived of the caustic impurities, so well known to exist in all common Saleratus, thereby dealing destruction to thousands not aware of its injurious qualities. So destructive is it to the constitution of children, that where they and the parents have been regular consumers of Saleratus Bread, there is but little chance for recovery from infantile or contagious diseases. In this way thousands meet with premature Death—the sad reality of which is forcibly demonstrated, in the mortality among children, in the New England and other States, where warm bread and cake is so generally consumed.

JAS. PYLE'S DIETETIC SALERATUS is of vast importance to the public, and is rapidly coming into use. Being deprived of all caustic impurities, it is quite as harmless as flour. In point of economy it excels having powerful raising properties, and is altogether superior to Baking Soda. No intelligent lady will dispute this after trying it.

It is packed in pound packages, each bearing the name of James Pyle, without which it is not genuine. For sale by John Furlong & Co., C. A. Folsom, Chapin & Gregory, Milwaukee; Eldridge, Shoemaker & Co., Madison; E. H. Jones & Bro., Fond du Lac, Wis.; A. Gross & Cong, Chicago. JAMES PYLE,

MEDICAL.

R. R. R.

THE MEDICAL TRINITY.

EACH of Radway's Three Remedies possess special curative powers over certain diseases; and when either the Ready Relief, Renovating Resolvent, or the Regulators, are used for the certain class of diseases they are specially designed for, the system undergoes a rapid transformation from its diseased condition to a healthy and happy state of existence.

RADWAY'S READY RELIEF.

This remedy is to be used externally, or taken internally, for all pains, aches and infirmities. In a few minutes it stops the most torturing pains, subdues all inflammations and cures the worst cases of *Rheumatism, Lumbago, Gout, Paralysis, Neuralgia, Tooth-ache, Burns, Sprains, Strains, &c.* It restores the *lame, infirm* and *crippled* to soundness and vigor. It is likewise a certain cure and preventive for *Fever and Ague, Scarlet Fever, Smallpox, Croup Hoarseness, Colds and Influenza.* Whenever you feel any unpleasant or painful symptoms, take a dose of Radway's Ready Relief, or apply it to the parts where the pain is located; in a short time you will enjoy ease and comfort.

Bear in mind, there is no pain so severe but that Radway's ready relief will stop, and no system so crippled with infirmities but that the R. R. R. Remedies will restore to sound and vigorous health.

RADWAY'S REGULATORS.

The discovery of these wonderful pills establishes a new era in purgatives, and a new principle in the science of medicine. In taking these pills no griping pains or sickness at stomach is experienced; they operate naturally, leaving the bowels, liver and other organs in a natural condition.

They insure those who take them a good appetite and a healthy digestion.

Each pill that is taken gives new life to the blood; they purify it, take from it all impure deposits and equalize its circulation.

One or two doses of Radway's Regulators will entirely remove all distressing symptoms of Dyspepsia, Jaundice, Nervousness, Indigestion, Costiveness, Liver Complaint, Billiousness, Melancholy, and will cure all organic diseases, either in man or woman. Ladies troubled with irregularities or weakening discharges, may rely upon a prompt cure and regular periods if Radway's Regulators are taken.

PICTURE OF HEALTH AND BEAUTY.

A few doses of Radway's Regulators will insure a clear, fair, pure and healthy skin and a rosy complexion. They give to those troubled with weak dull, yellow eyes, a clear and brilliant appearance. Radway's pills give a natural beauty to the face, eyes and head; and the use of the Ready Relief as a wash for the teeth and an aromatic for the breath, will change the most disgusting foul breath to sweetness, and the blackest teeth to Parian whiteness.

One to ten of Radway's Regulators is a dose; they never do injury, but always do good.

CONGESTIVE DISEASES, APOPLEXY, TERMINATION OF BLOOD TO THE HEAD.

Persons of full blooded plethoric habits are more subject to congestive diseases, headaches, rush of blood to the head, than those of a lean habit; bleeding in these cases is highly detrimental, nor does this practice lessen the danger; the difficulty is not caused by too much blood, but by its disturbed circulation, and the irregular action of the *heart*. Now a dose of Radway's Regulators will correct all these difficulties—they will *correct* the action of the heart, liver, and all other organs to a natural and regular action, and will immediately *equalize* the circulation of the blood. Mere purging in these cases will only aggravate the disease.

Radway's Regulators not only *regulate* the bowels, by which all diseased and injurious matter is purged from *the body*, but they control the whole system, and, *force*, each and every organ, the heart, brain, liver, nerves, bowels, skin, pancreas, bladder, kidneys, stomach, lungs, throat, blood, and every tissue in the whole organization, to a healthy and regular action. They infuse new life throughout the whole system; their action is not confined to any local part of the stomach, like common pills, but they search out diseased action wherever it may be hidden, and expel all diseased humors and deposits from the body. In a few hours after taking a dose of these life creating pills you feel refreshed and invigorated from head to foot. We have known the dispirited and melancholy take a dose of Radway's Regulators *just to feel good—they make one feel so happy.*

RADWAY'S RENOVATING RESOLVENT.

Cures Humors, Salt Rheum, Scrofula, Ulcers, Nodes Tumors, Fever Sores, Skin Eruptions, Blotches Bronchitis, Dyspepsia, Gout, Dropsy, Syphilis, Consumption, Apoplexy, &c., and all constitutional and chronic diseases, either inherited by hereditary transmission, or inoculated by exposure or otherwise.

There is no remedy in the world that will work such miraculous cures in old diseases as Radway's Resolvent. It changes the whole human body—reproduces new and healthy blood.

☞ Bleeding from the lungs—Radway's Renovating Resolvent will, in a few minutes, check Hemorrhage from the lungs or throat. In cases where the patient coughs up clots of blood or pus streaked with blood, Radway's Resolvent will soon remove the difficulty.

☞ Sarah Hammond, of 198 East Thirty-Second st. had a bad cough for two years, she coughed up sometimes half a pint of blood during the night. She was cured in seven days by the Relief and Resolvent.

☞ A sore leg of 21 years cured in three weeks, by Radway's Relief. Mr. T. H. Kilgo, a merchant of high standing in Dahlonega, Ga., says:—"That a gentleman who, for 21 years, had been afflicted with a sore leg, that resisted every kind of treatment, was effectually cured in three weeks by Radway's Ready Relief, Resolvent and Regulators."

GENERAL COMPLAINTS.

If you catch a sudden cold, get a sore throat, or become afflicted with influenza, a dose of Radway's Regulators, and an application of the Ready Relief, will free you from all pain and uneasiness. In a few minutes after the Relief is applied no soreness will trouble you. If afflicted with headache, either nervous or from foul stomach, Radway's Ready Relief, and a dose of Regulators, will remove all pain from the head, and restore health to the nervous and afflicted.

Radway's Ready Relief and Regulators always cures *Dyspepsia* in its most distressing forms, and nervousness with all its horrors.

☞ WHOOPING COUGH.—Thousands of cases of Whooping Cough have been cured in a few days by the Resolvent and Relief, and if the Whooping Cough is prevalent in the neighborhood, those who take half a teaspoonful of Ready Relief in a little water, once or twice per day, will never catch it. Radway's Relief destroys the infection of the "Whooping Cough."

☞ TOBACCO CHEWERS.—Those who have become reduced by the effect of tobacco, or the indulgence in spirituous liquors, who feel the horrors of incapacity, weakness, sterility, and the *infirmities* which a fast and intemperate, luxurious and lustful course of life inflicts upon its victims, will find relief from those horrors, and sure restoration to health, strength and vigor, by the use of Radway's Relief, Regulators and Resolvent.

BOERHAVE'S HOLLAND BITTERS

JE MAINTIENDRAI

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,

DISEASE OF THE KIDNEYS,

LIVER COMPLAINT,

WEAKNESS OF ANY KIND

FEVER AND AGUE,

And the various affections consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in many instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find in this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given BOERHAVE'S HOLLAND BITTERS a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.
